

This section contains various safety and assembly icons. At the top left, two human figures represent the number of people needed. Next to them is a toolbox containing a pencil, hammer, power drill, screwdriver, and safety glasses. To the right, a trash bin with a large 'X' indicates that parts should not be discarded, while a cabinet with a checkmark shows the correct disposal method. Below these are icons for handling parts: a question mark, a sad face, and a telephone icon suggest consulting the manual or customer support if unsure; a thumbs up icon indicates a correct action. A hand with a bandage and a 'no' symbol warns against touching parts with bare hands. The bottom row shows placement instructions: a rug with a smiley face and checkmark is correct, while a rug with a sad face and 'X' is incorrect. Similarly, a cabinet on a rug with a smiley face and checkmark is correct, while one with a sad face and 'X' is incorrect. The final row shows specific handling instructions: a thumbs up, thumbs down, and eye icon; a sad face and 'X' over a screw; a smiley face and checkmark over a screw; a hand and eye icon; and a hand and eye icon over a surface.
